EDUCATION

University of Waterloo

Candidate for Bachelor of Mathematics, Honours Mathematics

GPA: 88/100

Waterloo, ON

Sept 2023 – Present

EXPERIENCE

Business Analyst Intern

Innocuous AI

July 2023 – Present

New York, NY

- Researched 37 accelerator programs for the company to attract funding and broaden VC connections.
- Developed monthly AI insights by analyzing key market trends via news sources to enhance engagement on the company's social media platforms
- Remodelled the Investor Pitch Deck to improve clarity and visual appeal by following principles learned from the Art of Start 2.0

President

Upper Canada College International Coding Bowl

Sept 2021 – April 2023

Toronto, ON

- Directed the development of UCC's annual international Coding Bowl, by creating unique problem statements and hosting contestants from 58 schools worldwide.
- Collaborated with DMOJ Competitive Programming Moderators over a 3-month period to align our coding challenges with the International Olympiad of Informatics standards.

PROJECTS

Investment Portfolio

March 2023 – Present

- Managing a Global Equity Portfolio of high-quality selections, mostly large-cap US/EU stocks.
- Achieved an **absolute return of 31.24%** since inception in March 2023 till Jan 2024, **outperforming the S&P 500 Index by 14.97 percentage points** by focusing on quality, valuations, and long-term.
- Aim to be in the top 10% of global investors.

TeXlator | *HTML, CSS, Javascript*

Dec 2023 – Jan 2024

- Developed "TeXlator," a Math Expression to LaTeX Code Translator using HTML, CSS, and JS.
- Integrated MathQuill for intuitive expression input and MathJax for LaTeX output, simplifying the LaTeX learning curve encountered during university coursework.

Voice-Modulating Mandalorian Helmet | *C++, Arduino, Fusion 360*

Oct 2023 – Dec 2023

- Utilized Fusion 360 for 3D Helmet design, and C++ programming for manually soldered Adafruit Wave Shield for audio processing to transform analog input into voice-modulating speaker output.
